

TECHNOLOGY MANAGER · DIGITAL MAVERICKS

Lorenzo Nonoy

I design the systems that turn offers into revenue machines media and sales can actually run.

CRM. Webinars. Email and SMS. Attribution.
Conversational AI. One operator from first click through close.

SELECTED WORK

Funnels with a spine.

01 / CASE · 2024 - PRESENT · PUBLISH & PROSPER

End-to-end revenue funnel for an AI publishing offer. One CRM. Many entry points. A free tool and cheatsheet into a masterclass and VSL/cart, then a high-ticket partner suite, JV program, and multi-day challenge.

GoHighLevel

n8n

StealthSeminar

Vercel

02 / CASE · 2026 · AI OPERATOR HQ

Four-path book-trilogy funnel you can actually read in the CRM.

Premium, downsell, high-ticket apply, and control. Path-based tagging so tests do not collapse into a single registered blob.

Funnel architecture

Path tagging

GHL SaaS

03 / CASE · OPERATING SYSTEM · MULTI-BRAND

Webinar-to-CRM that matches follow-up to watch behavior.

Registrants, attendees, time-based zones, CTA clickers, no-shows. Conversation AI and voice so hot leads do not sit in a tag.

Attendance zones

UTM architecture

HOW I WORK

The offer is not the system.

SYS / 01

Data that survives.

UTMs, landing-page URL, join and replay links, and engagement scoring stay intact from first click through close.

SYS / 02

Watch behavior, not just showed up.

Time-based attendance zones and CTA tags so follow-up matches what someone actually watched.

SYS / 03

Mail that lands.

Sending-domain DNS and DMARC, mailbox warmup, and immediate-send automations for openers and clickers.

SYS / 04

AI that has a job.

Conversation AI and voice with tags, pipelines, payment links, and objection logging.

PUBLISH & PROSPER · OFFER LADDER

Free tool to partner suite.

EXPERIENCE

Where the systems were built.

Jun 2024 - Present

Technology Manager

Digital Mavericks Media · Remote

- Own marketing technology across multiple client brands: funnels, CRM, webinars, email/SMS, attribution, and AI follow-up.
- Build webinar-to-CRM automation in n8n and GoHighLevel with attendance-zone tags, CTA click tags, and no-show recovery.
- Design CRM data models so UTMs, landing-page URL, join/replay links, and engagement scoring survive from first click through close.

Oct 2023 - Mar 2024

Campaign Manager & Technology Specialist

PrimeSync Solutions

- Planned and ran digital campaigns end to end, and implemented the marketing-technology layer so launches did not wait on IT.

2018 - 2024

Lead Generation

Mojo Global · United States (Remote)

- LinkedIn-first lead generation for US clients, plus automated follow-up sales teams could work.

Oct 2007 - Apr 2017

Senior Learning Specialist

TELUS International

- Owned customer-service and sales training for national and international contact-center agents.

Education

Bachelor of Secondary Education

University of the Philippines · 2003 - 2007

Certifications: Applied Coaching System · Trainer Development · Lean Six Sigma Yellow Belt · Contact Centre Management

CONTACT

If the funnel is leaking, let's find the hole.
